Crowdsource The Truth is an Open Source Fact Checking "Truth Engine" and political social media movement.

We gather and disseminate raw intelligence and present it to our constantly expanding network of human brains for vetting, analysis and assessment.

Crowdsource the Truth focuses on examining current events, public policy, history, truth in media and other topics of interest. Members work together to collect and analyze data from around the web and around the world. Together, we will do our best to determine what is fact and what is fiction. Everyone is invited to participate but of course no one is required to.

If you see something you disagree with, challenge it with stronger evidence and logic or simply tune it out. This group is an Autocratic Democracy, to borrow some Orwellian doublespeak from those I wish to examine. I run it, but of course if the group dislikes my decisions the project will fail. All decisions will be subjected to group consensus. If anyone doesn't like the direction, please suggest a change or feel free to bow out.
